

## STANDARDIZED PROGRESS REPORT QUESTIONS JOB PLACEMENT

### Directions

The following questions have been developed to guide your analysis and action plan directed toward improving your outcomes for job placement. *Please forward an electronic copy, as well as a paper copy, by the required due date.*

1. When does the program survey graduates to determine if they are employed in the field of perfusion?
2. How does the program track graduate job placement?
3. Does your institution have a placement office? If so, do graduates utilize the service?
4. List all methods utilized by the program to assist in placing graduates.
5. What insight do graduate/employer surveys provide as to why job placement is a problem?
6. Why do you think graduates are not employed within 12 months of graduation?
7. Based on your analysis and consultation with the placement office (if applicable) describe an action plan to improve the placement of graduates.

**\*\*\*The analysis, action plan, and evaluation of results of the action plan must include any and all issues that have been identified as problems in the program's annual report\*\*\***
